City of St. Clair Shores Construction Update 03/03/10

9 Mile Water Main Replacement Project (Harper to Jefferson)

C & P Construction

The contractor is currently installing the water main east of South Lake High School. They will continue to work towards Harper and plan to have all the main line pipe installed by the end of the week. Next week they will start boring the new main under Harper Avenue. Once this is done they will begin connecting the newly installed main to the existing water mains and connecting services. The outside eastbound lane of traffic will be closed to accommodate the construction.

Sanitary Sewer Cleaning and Televising (a Lake St. Clair Clean Water Initiative Project)

Doetsch Environmental Services, Inc.

The contractor is currently cleaning and televising sewers between Martin and 12 Mile and I-94 and Little Mack. Next week they will be working on the west side of Jefferson between Hoffman and Masonic. The outside southbound lane will continue to be closed throughout next week to accommodate this work.

Beaconsfield Arm and Relief Sewer Cleaning Project (MCPW Project)

Downunder Municipal Services Co.

Beginning in April the Macomb County Public Works Office will begin to clean a sanitary relief sewer along Meir, between I-94 and Little Mack, and along Stanley, between Little Mack and Harper. Notices to the adjoining homeowners will be distributed prior to construction beginning.
